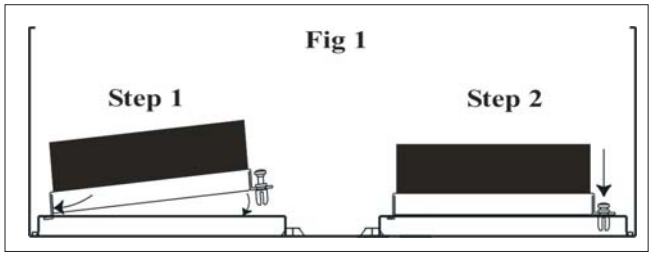
Hills Home Hub®
HVS-104PV RF SPLITTER

Installation: (see Fig. 1)

This Hills Home Hub® Passive Video Splitter Module is used to route the antenna signal, Satellite TV or Cable TV to multiple locations. The Hills Home Hub® HVS-306AIR Active Splitter Video Amplifier Module may be required when the RF signal must travel over longer cable distances. To install the module, simply insert tabs to the cap located on the rail of the enclosure. Press the fastener to lock the module at the desired position.



Operation: (see Fig. 2)

Use only RG-6Q Quad shield Coax cable. A video source is connected to the "IN" port located in the center of the splitter. OUTPUT ports can route the input RF signal to up to four locations.

It is recommend that unused output ports should be capped with 75ohm terminator.
